What the Pet Professionals say about the Vibrant Pets® Formulas!

Ashburn Farm Animal Hospital
43330 Junction Plaza Blvd. #172
Ashburn, VA 20147

To Whom It May Concern:

I have some important information if you are considering using Vibrant Pets® as a supplement to your pet's diet. I have found it to be a great additive for all pets, especially geriatrics and arthritic patients. It gives older pets a boost of energy. All of my clients that have tried it have reported wonderful results. I have found it to be palatable and well-tolerated by almost every pet. My own dogs and cats eat Vibrant Pets® formula on their food twice daily. I have seen significant improvements in their overall wellbeing since I have started using the product. And they seem to love the taste!

I suggest Vibrant Pets® to all of my patients. After all, proper nutritional supplementation is the key to a long, happy, and healthy life.

Sincerely,
Pamela Grasso, DVM

Lee Phillips
Vibrant Pets®

609V Main Street
Purcellville VA 20132

Dear Lee,

I just wanted to let you know that we have tried your product on several animals in our clinic and have found it to work well. Older dogs with arthritis have found relief. Shedding has been reduced, and the animals generally seem to feel better. Owners report that the animals are more active and alert and generally feel better.
Thanks for a great product!

Most Respectfully,
Al

Dear Lee,

I would be honored to send my thoughts on Vibrant Pets dietary supplement. We have raised Miniature Schnauzers for close to fifty years. We started adding Vibrant Pets dietary supplement to their diet some time ago. I have noted that our pets appear to be more active and frisky than before. While I do not know all of the details of the total contents of this product—I can definitely say that I have empirically observed an improvement since we started using it.

I am a registered pharmacist in Virginia and I believe I can well appreciate the importance of dietary supplement products that improve the lives of our beloved pets. Our most recent Schnauzer “Zoey” is a 7- 8 year old diabetic rescue dog who was blind due to cataracts that no doubt was a result of her probably uncontrolled diabetes due to neglect. We had her cataract lenses replaced and she is a very healthy, frisky and happy young lady now who I think is at her prime

and who is a totally controlled diabetic puppy. I think the addition of the Vibrant Pets dietary supplement has helped her quite a bit to restoring her to vastly improved health. Our vet says she is the healthiest and luckiest puppy dog in Loudoun County and she is frisky and laser like in her chasing of chipmunks and birds that she can now spot at incredible distances.

Please feel free to contact me anytime at a.hurst@rstarmail.com for additional information that I can provide. I am a retired Virginia Board of Pharmacy, Medicine, Nursing inspector and investigator.

Good Morning,

I met you all at the Pet Expo in Orlando several weeks ago. We discussed my German Shepherds and I decided to try your Joint and Muscle Formula. I have a 9 year old retired working dog with bad hip problems and a 5 year old working search dog with off and on problems from an old injury. I have seen a dramatic change in my older dog since I started giving him your supplement. He is not a couch potato any more. He is active, wants to play, greets me at the door. I have also noticed a change in his fear of storms. I adopted him about 2 1/2 years ago, problems and all, because he had such a hard life and deserved love and a happy retirement. He had such a fear of storms that when it sprinkled, he would hide and shake. We just went through TS Fay, and I have to tell you, he went through that storm like a champ! He was not fearful, he went out in the wind and rain, he was a different dog. The only thing I can attribute that to is your supplement. My 5 year old has not had a problem in the past few weeks either, and I have noticed that the joint in his paw is looking better than ever. Even with the pressure drop due to the storm, my boy had no pain associated with the joint as he has in the past. I want to thank you for taking the time to talk to me and introducing me to your product.

Leslie Flores and K-9 Boss, and retired Gunther

All my dogs use Vibrant Pets® and have since the product first came out. My dogs are given Canine Athlete. As a show exhibitor, my dogs have wonder coats and skin that really give them an edge in the ring. My male also does agility and at the age of almost 10 years, he still runs a course like a young dog. As a breeder, I give all my puppies Vibrant Pets® and all my puppy owners are strongly encouraged to use it, as well. I now have three generations of dogs on Vibrant Pets® and all are extremely healthy. This product does everything it says it will, and more!

Karenjean Krammes

Wow! What a difference in our 16 year old Labrador Retriever and 15 year old Weimaraner! Since we began supplementing our dogs' food with Vibrant Pets® Canine Athlete we have seen a remarkable improvement in their overall functioning. Specifically, we have noticed that they are more mobile and more alert (sometimes to the point where we "threaten" to stop giving them Vibrant Pets® because they're too rambunctious). We know that Vibrant Pets® will help to extend their lives, and we will keep them on it indefinitely.

Thanks, Vibrant Pets®, for introducing us to this wonderful product!

To Whom This May Concern:

I am writing to tell you how great your product is.

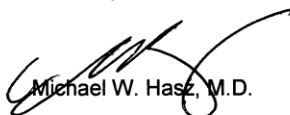

I have been using your senior complete vitamins for dogs, for my now four year old Portuguese water dog, and she remains as young and healthy as ever.

She is remaining as energetic, she has a clear coat, has no skin issues, and is doing very well.

I am very pleased with your product.

If you have any questions or would like to know anything else about how my dog, Red, is doing, please let me know.

Sincerely,

Michael W. Hasz, M.D.

Dear Lee,

In June 2004, I agreed to foster a young female Doberman with severe, generalized demodectic mange. As a volunteer for DAR&E, Doberman Rescue, I had never seen such a serious case. She had almost NO fur, and you couldn't even tell what color she was. For this reason, I named her Pinkie.

Over the subsequent months, we battled her mange with multiple dips, antibiotics, and oral mitocides. She would eventually clear, only to relapse weeks later. Her treatment regimen included several MONTHS of daily Interceptor, the heartworm preventive. As you might imagine, I was desperate to find a way to control her relapses. By now, I had adopted her as my own dog, since I felt nobody would be willing to adopt a dog with such an expensive health condition. I wandered into the Doggie Wash in Feb '05 and you convinced me to try Vibrant Pets®, Show Dog formula, insisting that the supplement would give her immune system the necessary support for her to fight her mange. You were SO right. After starting the Vibrant Pets®, Pinkie NEVER experienced a relapse in the following 1.5 years. UNTIL, however, her adoptive mom (me), ran out last spring. She had been doing so well for so long, I actually didn't think it would matter. BIG mistake. Within 2 weeks of stopping the Vibrant Pets®, she developed an opportunistic fungal infection of her fur, and it started falling out in patches. I then restarted her on the Vibrant Pets®, and within 10 days, she was growing her fur back and the fungus was GONE! She also received some medical treatment in the form of medicated baths, but I'm convinced it was the Vibrant Pets® that made all the difference.

Now, Pinkie is again healthy, with a beautiful red coat and vibrant personality. I credit Vibrant Pets® for restoring her immune system. I believe in the product so much, I've agreed to help spread the word. I believe ALL rescued dogs that have been through stress and poor diets would benefit from this supplement.

Sincerely,

Nancy Tang, MD

Vibrant Pets® Ultimate Formulas have made a major contribution to my dog show career. It provides perfect conditioning and a "winning edge" coat. I highly recommend their ultimate formulas because they are the only supplement on the market that actually works to produce positive, long term results.

Jimmy Moses, World Famous German Shepard Handler.

Dear Vibrant Pets®,

My husband and I adopted Mason, a Mini Schnauzer-Scottie mix months ago from a rescue league helping animals of Hurricane Katrina. After welcoming Mason in to our home we soon realized that he had many more problems than we could have ever imagined. Mason was completely covered in small bites and his skin was extremely dry, his fur would fall out in clumps. I began looking for supplements to give him to help the many ailments he possessed. As you know there are so many products out there promising the world. So often leaving you disappointed and again searching for that one miracle product.

Finally, after months of research, trial and error we have found that miracle supplement. I am so truly grateful that Lee and his staff at Vibrant Pets® care as much about my family as I do and have created these products.

Vibrant Pets® enables our dogs to live the healthy life they deserve. Lee, my husband and I can't thank you enough. I now have two very healthy animals with a bounce in their step and a healthy sparkle in their eyes. I am also very pleased to see that even the burn spots left by my two little darlings on the lawn have completely disappeared, leaving a fresh green lawn for the dogs to play on.

My husband, Bailey, Mason and I thank you!!

I will like to thank you for coming down to the USA National Championship in Gadsden Alabama in November. I was glad you set up a vendor stand so all the other competitors could see your great product. Since I have been turned on to your product from a very close friend, I have been thoroughly convinced what a truly good product Vibrant Pets® is.

I began using your product in the summer of 2006 and have been amazed on what a difference it made on my dogs overall physical condition to include very nice glossy coats. I experimented with my young competition dog Eumah and my older arthritic dog Zao who is coming up on 13 yrs of age.

In Eumahs case your product seemed to bring out energies I've never seen in him before both in training and actual competition. He is always in high drive and that kind of engergy requires a good supplement to maintain his high level of energy which is definitely required in my sport. (Schutzhund).

In my older dog Zao's case, Vibrant Pets® seemed bring out more energy than I've seen in him in years. After only 10 days of Vibrant Pet supplement feedings, he is chasing my younger dog around the yard and taking longer walks without a problem. Before he would go for a mile or so walk then call it a day, now he can go much longer and always ready for something else to do. His coat was also in pretty bad shape and is now full and glossy. It does nott take a rocket scientist to see what a difference your product has done for my dogs and I look forward to using your product

from now on.

I think your product is very cost effective for my budget and I'm getting much more bang for the buck compared to other supplements that only do half the job. Thanks for brining forth Vibrant Pets® to the pet owners who care for their animals as much as I do. I look forward to seeing you at the major shows and promise I will get the word out about your product to all my dog friends.
Hal Lymis

As all experienced Groomers and Pet Stylist know, most dogs that we care for have problems that need addressing. Everyday we have clients come into our shops with dogs that have a multitude of health conditions that should be corrected. Groomers and Pet Stylist are mostly concerned with the dog's skin and coat but, as dog lovers, we are equally concerned with the dogs overall heath. I have been recommending Vibrant Pets® supplements to my clients for five years and my clients find it as close to a miracle cure as you can find.

We have three Kerry Blue Terriers that take Vibrant Pets® every day. All three, including our oldest 6 year old Kerry, run and play like a puppies and all three have a luxurious coat. I recommend Vibrant Pets® to most of my clients and I have seen a significant positive change in dogs that regularly take Vibrant Pets® supplements. In one case I have a client with two Cocker Spaniels and one of her Cockers developed a joint problem and their Vet recommended surgery. Two weeks prior to the dogs scheduled surgery they scheduled a grooming.

After the grooming I recommended that they try the Vibrant Pets® Joint & Muscle supplement and they bought a bottle. They took their Cocker for the scheduled surgery and returned home. When they returned home the Vet called and told them to pick up their dog as he did not know which side to operate on as the dog appeared to be normal. By being able to recommend and sell our client Vibrant Pets® supplement we were able to save our client money and more importantly the dog did not have to go through the trauma of an operation.

Vibrant Pets® supplements have helped more of our clients then I can count. We see better coat conditions everyday. We notice that our clients' pets are getting healthier and joint and muscle problems are reduced. My clients report that they see the positive results of Vibrant Pets® supplements within two weeks.

We wanted to test just how good Vibrant Pets® really is so we asked The Friends of Homeless Animals no kill shelter if we could put six of their dogs on Vibrant Pets®. With their help we picked six dogs with severe health problems. Two dogs had hip problems so severe that they could hardly walk, two had bad skin and coats and two had a combination of both joint and skin/coat problems. Within 10 day the shelter called us and asked what was in Vibrant Pets® because they saw a significant improvement in all six dogs.

Vibrant Pets® is so sure of their supplements that they guarantee their products to "do what ever the buyer expected the supplement to do". In five years of selling Vibrant Pets® only a few have been returned to The Doggie Wash and the reason for that return is because a dog would not eat the supplement.

A client does not buy just one bottle they buy many bottles over the lifetime of their dog. We as pet professionals have a duty to recommend to our clients products to maintain or increase the health of the dogs we care for. In addition, increasing the dog's health with Vibrant Pets® makes our job easier.

You can expect that dogs on Vibrant Pets® will have better coats and will be more pleasant to groom. While you are improving the dogs' health and making you're grooming more enjoyable, you can also make money. In addition to making a profit our clients are thankful and that is the bottom

line.

Call me if you have any questions. You can reach me at 540-338-9554.

All my dogs use Vibrant Pets® and have since the product first came out. My dogs are given Canine Athlete. As a show exhibitor, my dogs have wonder coats and skin that really give them an edge in the ring. My male also does agility and at the age of almost 10 years, he still runs a course like a young dog.

As a breeder, I give all my puppies Vibrant Pets® and all my puppy owners are strongly encouraged to use it, as well. I now have three generations of dogs on Vibrant Pets® and all are extremely healthy. This product does everything it says it will, and more! Karen Jean Krammes Lighthouse Chinooks Member- Board of Directors, Chinook Club of America, Inc. Dear Vibrant Pets®... I am so excited to be able to offer these products to my clients and their wonderful canine family members!

It is so true, our pets often get treated much better than we treat ourselves (and deservedly so!). This new product offers the best of everything I want to give my dogs, and they love the taste! My puppies will be started on this supplement and their new families will be given the supplement to take home. I'm sure they will see why this is so important to their new family member.

Thanks so much for caring so much!

Sincerely,

Connie Legacy

PONs Von Drevas Leonbergers

Here is what our Clients say about Vibrant Pets® Formulas!

Before Vibrant Pets®	After using Vibrant Pets®
----------------------	---------------------------

Unfortunately I'm not the best photographer. I've attached several photos. Her whole back side was bald in patches and you can see from the more recent photos how nicely her hair is growing back in. It looks like she had been shaved from the waist down with new growth now. She's feeling wonderful. Much more playful, good appetite.

We are so pleased and will continue to use Vibrant Pets and share the good news with other dog lovers. Our vet reviewed your flyer, told me "this is good stuff. Keep her on it".

Thank you so much. Thank you Lee for your kind support towards me through a most trying time for Midnight.

Sincerely,

Dianne Cecchett and Midnight

Looks great and is active again

I wanted to drop you a note and let you know how wonderful your product Vibrant Pets is working for my dog. Frey is 13 ½ years old now and had a lot of stiffness in his back and hips. After about a month of Vibrant Pets (joint and muscle) he is now (aside from sight and hearing loss) bounding up the deck stairs and house stairs after playing in the backyard with my 5 year old. Just recently I ran out of the formula and he went 3 days without it. He was having so much trouble standing up on the wood floors and walking around at night. I won't let THAT happen again! Thank you so much for your wonderful product and for improving my "baby's" quality of life so much.

Sincerely,
Traci Eddinger

In less than 2 weeks

Dear Lee,

I met you at the Edison Super Pet Expo where my friend and colleague purchased the 'joint & muscle' vitamin for my 6 year old Labradoodle DJ. He has been taking it for 2 weeks today and both my husband and I (my daughter too) see a distinctive change. He had injured his ACL (rear left leg) almost a year ago. We elected not to put him through surgery and sought alternative treatment with a vet acupuncturist/chiropractor. Actually he had an acupuncture and chiropractic adjustment treatment 2 days before I started him on the vitamin. He did well with the acupuncture/chiropractic treatments last year -- at first going regularly and then every 6 weeks -- 8 weeks. He's been up and around on his legs for over 11 months now --

Since he's been on the vitamin we see him acting ½ his age -- actually even bringing some puppy behavior back into his repertoire (like standing on his hind legs and checking out the counters -- he

hasn't done this in years—not necessarily desirable but certainly noticeable!) –he sees our other young spaniel (10 months) doing this all the time but hasn't tried it since the vitamin and he's done it a few times already! The first night after I gave it to him he actually got into a fight with our other dog which never happened before (blood was spilled – but wherever the wound was it was superficial). My husband joked yesterday when I was making him a smoothie that maybe I should put some of it in the smoothie for him – my husband.

Thanks again.

All my best,

Dorry Bless

DORRY BLESS Celebrant

In less then 6 weeks!

before Vibrant Pets®	after using Vibrant Pets®

Owner wanted to "put Muffin down" because she could no longer afford treatment and tests. Allergic to cats, molds and fungus and lost almost all of hair and her skin was raw and she had a yeast infection. Vet had her on steroids and antibiotics which did not work. We took Muffin off all medications and gave her only Vibrant Pets® Show Dog and in less then 6 weeks she was full coated and in good health.

Utter Amazment

Dear Jane,

I would like thank you for such a great product. I have a german sheperd that has hip displasure. he was limping badly and looking at surgery. I was attending a dog expo and came across your product and decided to give it a try. Within a week, to my utter amazment, his limp was gone. When i took him to vet for a recheck, he wanted to know what i did with the real Capone. Capone is two now, he runs and jumps like a young dog should. I would highly recommend your joint and muscle supplement to anyone who has a pet with similiar pain. Your product trully works!!!

Thank you again

Kathy Penna

After using Vibrant Pets® no more trips to the Vet for shots and pills!

I have been a dog owner for more than 25 years. I own two Shih-Tzu's at the present time. One in particular has had a skin allergy since he was a puppy. The skin becomes red and itchy and the dog pulls the hair off and makes a bare spot. When this happens, we would have to make a trip to the vet for a cortisone shot and pills. This happened quite frequently and it was hard on the dog. My dog groomer introduced me to the Vibrant Pets® power formula. Since I have been using this product, my dogs skin condition has improved greatly. We have not had to make trips to the vet for expensive shots. Both dogs coats have improved.

I showed this product to our veterinarian and he said the ingredients were all natural and with

these results to certainly keep giving this formula to our dogs.

Robert Carlson

Purcellville, VA

May 2006

Seizure prescriptions did not stop seizures but after taking Vibrant Pets® seizures are a think of the past!

Just wanted to let you know, I have an 8 year old Siberian Husky who began having seizures approximately once a month since he was 4 years old. Several Veterinarians suggested Phenobarbital and gave me prescriptions to keep him from having the seizures.

After trying the pills for 3 days, my buddy seemed like he was a zombie, which they assured me would level out after he was "use to" the medication. Additionally, my own research indicated that we would be trading one problem for another down the road (a compromised liver).

I made the decision we would keep things natural without drugs and keep searching. We have lived with full blown Grand Mal Seizures like clockwork every 4 to 6 weeks for the last 4 years. One day I was talking with Lee Phillips and he suggested that I try Vibrant Pets® Canine Athlete Ultimate Formulas. I was skeptical, but have never given up hope on trying to help Denver . We began giving it to him that evening and he has not had a seizure since, which is now going on 7 months straight.

Denver and our German Shepard, Yukon will remain on Vibrant Pets® Ultimate Formulas for as long as they live. We can't thank you enough from the bottom of my hearts.

Sincerely,

Leisa and Greg Sutherlin

Our "almost miraculous" product alleviated many problems "almost immediately"

I extend my sincere gratitude to LEE and Irina for suggesting Vibrant Pets® Athlete for our dogs! Granted, my initial response was that of reluctance. We have a menagerie of wonderful dogs, all from a rescue shelter, each having their own health issues. Solving these issues can become a menagerie in itself. Since starting our dogs on Vibrant Pets® Athlete several months ago, I have seen a noticeable difference in all of our dogs almost miraculous.

They began responding almost immediately. Once again, our Terrier has hair, very soft hair! Truly, she did not need more bounce in her step, but it's there! Allergies contributed to considerable hair loss, especially in the Spring and Fall. We had tried everything, including prescribed medications, not to mention chamomile tea baths.

Our older hound responded after only three days. Forever, he's had a sensitive stomach, often resulting in vomiting and diarrhea. Through the years, we've tried many different dog foods, holistic, naturals, etc. He does wonderfully on Vibrant Pet and no longer has diarrhea or vomiting as a result of his diet. All of our dogs have brighter and softer coats, more agility and anticipate feeding time, even more, if that's possible.

With Gratitude,

W. Napier

Leesburg, Virginia

Years without help until Vibrant Pets® came along

Hi Jane

Sorry I didn't get this to you sooner, as promised. I had misplaced the info you sent and just couldn't put my hands on it. I have given a pamphlet to 3 different vets and have also passed along your website etc to several other dog people.

As I mentioned to you on the phone, one of my dogs had what looked like a wound on her hind leg that I thought she may have injured on the kennel run. I had cleaned it up and put medicated salve on it. After several days it wasn't healing. That was about 5 to 6 years ago. Throughout that time, I tried various medications, accupuncture, sprays, salves, you name it. I researched different subjects that someone thought it might be. She was taken to 4 different vets over a period of time, one of them being in Canada. A couple of the vets diagnosed it as a lick granuloma. Most of the time I had it bandaged with various types of salves etc. I never really did see the dog licking it or trying to get the bandage off to get at it. She would clean off her legs/paws from either the morning dew or wet from rain. I did get the one leg so it wouldn't just open into a sore but the problem came out on the other leg. That got infected a couple times and she was on antibiotics. This last Spring or earlier, a friend in Canada told me of your product that she had seen at one of the trade shows. I checked out your website and decided to try the product. Probably a month went by and I noticed the leg was starting to heal up. Since using the product(I chose the Canine Athlete) there has not been any out break of sores or the skin just opening up. The skin is now a dark color underneath a new growth of hair. No bandages, salve or other meds have been used since. It has been great not having to be concerned about flies, bacteria etc. Other than a bout with pneumonia in June of this year, she is doing good and turned 13 on August 1.

As to the diagnosis of the vets and the thoughts that many friends and others had, I don't know if there has really been a conclusive answer to this particular problem. As to being diagnosed as a lick granuloma and then healing over.....maybe the magic powder may be something to try on other dogs with that same problem. I can only say that after using the Canine Athlete, the sores went away after being present for years.

Thanks

Sandy, from Michigan

Dog with many problems

Dear Jane,

We have a 6 year old beagle, Ernie, who has been a couch potato for a few years now. It was complicated by injury to his knee(s) which required ACL replacement in March and July of this year. We started Ernie on Canine Athlete formula in August to try to alleviate several symptoms listed in your website, mainly relating to pain in the joints, skin flakiness/coat dullness and general lethargy. In the first two weeks we noticed definite improvement all areas. In fact, his coat which was shaved from the 2nd surgery is as long as the shaved portion from the 1st surgery and is very shiny and full. We adopted a puppy right before the 2nd surgery and now Ernie plays vigorously with him and in fact the puppy sometimes has to run away from Ernie. We believe that Vibrant Pet Canine Athlete formula has given Ernie a new "leash"on life.

Sincerely,

Frank & Rita Van Lenten
Liberty, SC Dog 21

Veterinarian could not believe the results of using Vibrant Pets®!

My 11 year old blue Doberman Garth was, lame due to a neck injury, bald, with pressure wounds on his elbows. I was told when he first went down that he would only have a couple of months to live before his organs would fail due to his lameness.

He had been bald for years, the vets all said "Blue Doberman Mutant Freaks". In order to be blue they have genetic defect that affects skin and coat. Most blue's are bald or very thin haired at mid life or so. I carried Garth outside for his potty breaks and had to support his body while he did his business. This was no easy task, Garth weighed in at about 90 pounds. His pressure wounds were a result of his down time. We tried every brand wound gel and homeopathic wound products known to man kind. Nothing seemed to help heal his elbows. Garth continued to eat and drink and have a real zest for life, I refused to put him down as long as he was acting like himself.

My mother had told me about a new product called Vibrant Pets® that she had just purchased. I started to use Vibrant Pets® Canine Athlete Formula. I could not believe the results, and neither could my veterinarian. Garth began to first grow hair, where he had been bald for years. Even in the early years when he had almost a full coat of hair, even his sides. I began to notice that Garth was starting to use his hind legs to better position himself in his bed. In the next 2 months Garth had regained so much strength and movement in his hind legs that he could stand on his hind legs while I supported his front. This was a huge blessing; it made holding him for his potty breaks so much easier.

The pressure wounds that had responded to nothing were slowly now healing. The new skin growth on his elbows was slow but steady. All of the improvements came only after using Vibrant Pets®.

At 13 years of age Garth was diagnosed with bladder cancer. We began to use cancer medicines, and was told to expect his health to begin to decline. Garth lived an amazing 6 months after this diagnosis was given. During the 6 months he never showed any standard bladder cancer signs. There was never any foul odor in his urine, and almost no blood was visible. Once again the only explanation can be the Vibrant Pets®.

I am sure that Vibrant Pets® gave Garth 2 very good years of life. He was said to be "down for the count" at 11 years of age and he lived to be 13. When Garth had to be seen at the veterinarian's office, all of the doctors would come to visit him, to see the dog that had defied all the odds for years.

I still use Vibrant Pets® on my remaining healthy dogs, and they shine and are so soft that people always ask me what I give them. I recommend Vibrant Pets® to everyone. I can't thank this product enough.

Sincerely,
Wendy Skelly
Lovettsville, Virginia

Hello-

Our beagle/ foxhound mix was a major shedder. Thanks to this product, her shedding has practically disappeared. Her coat is extremely shiny and I no longer need to vacuum on a daily basis. An added benefit to this product has been that we have noticed our grass is not full of yellow spots! Yeah!

Thanks for such a great product!!

Margie

The breeder wanted the dog dead but Ulysses playfully lives on, without pain, taking Vibrant Pets®!

My Saint Bernard has suffered from hip dysplasia since birth. The breeder offered to give us a free puppy upon showing proof that we had put him down. We were aghast to say the least. Soon after, we started taking Ulysses to the Doggie Wash in Purcellville, Virginia, for the best bath in the state, whereupon we were introduced to Vibrant Pets® Joint and Muscle Formula.

We immediately put Ulysses on the supplement, and were happy to see improvement, therefore avoiding pain medications. Since using the new, improved Joint and Muscle supplement, he has increasingly become more energetic and playful. He receives three scoops per day in his food. My children immediately recognized that the new formula no longer has a strong medicinal smell, and constantly remark that his fur gets softer everyday. Most importantly, Ulysses leaves no supplement behind in his pan at mealtime.

Thank you, Vibrant Pets®, for caring about the health and nutrition of our pets and best friends!
The Paulovkin Family

Old dogs turned into young dogs by using Vibrant Pets®!

Lee suggested we use the Vibrant Pet Canine Athlete formula for our Wheaten Terrier. We have used it for both our 14 year old Wheaten and our 11 year old beagle-mix for about a year. Before using this formula our wheaten was not very active and you could tell her joints were sore.

She is now very active, loves to go for walks, jumps up on everything and you can tell she feels good. Our beagle acts like a puppy - and her coat is gorgeous - soft, shiny. Both are very healthy dogs and we plan on continuing to use the Vibrant Pet Canine Athlete formula.

Thanks Doggie Wash!

Sharon Wilson

Vibrant Pets® "saved one of our dogs"!

Dear Purveyors of a fine product,

I want to write you and let you know that you saved one of our dogs. Taz was rescued from a meth house in Iowa 7 years ago. My wife's best friend was the one who saw him and realized he needed a better home. He was 6 months old. About 2 years ago she and her husband fell on financial hardship and my wife offered to drive to Chicago to get him. He was an instant hit with our kids and our other dog, Caleb.

When we got him he was very overweight, because he had to be fed table scraps. We knew he had bad hips and tried a several methods to help. He went on prescription meds. They made him throw up. We tried another over the counter med (aspirin coated in mylanta). It made him throw up. We tried glucosamine/chondroitin from a mega chain pet store, it did nothing.

Finally while at a store in Purcellville, VA and saw Vibrant Pets®, joint and muscle formula. Since being on this he is a different dog. He is full of energy and spunk. Although he is still overweight (a continuing battle) we hope that he will be with us for many more years thanks to your product.

Sincerely,

Dave Davoudlarian & Taz

In the first few days reverted back to a young dog!

My dog, Fred, has been taking the Vibrant Pets® - Canine Athlete formula for the last several weeks. I noticed a difference after the first few days that I started mixing it in with her food. Being 12 years old, Fred had the typical joint issues that come with a dog of that age (limping, easily injuring her legs, etc).

After starting her on the Vibrant Pets® she literally seemed to revert back to how fit she was at age 5 or 6. She no longer exhibits any signs of limping or soreness in her joints. She tears around the back yard like a dog half her age. It's wonderful to see a product that could give so many years back to her.

Thank you so much for turning us on to this wonderful product. You have a new constant customer!

Thank you!

Courtney Wayland (and Fred)

Cats the masters of us all

Frisky Feline

Before Frisky Feline

After using Frisky Feline

Esther came into our shelter anemic, emaciated and dehydrated. She was diagnosed with diabetes and hyperthyroidism. Look how sweet she looks now among the stuffed animals! BTW, my family and I adopted her!

Dear Vibrant Pet,

I am Bobbie from Wisconsin, I have raised and shown Persians and Exotic Cats for over 20 years and now Maine Coon Cats the last 4 years. I started giving select groups of my cats Vibrant Pet supplements in July of 2007. My 3 year old Maine Coon male was having an immune system problem that was affecting his skin (hair loss and open sores). After one month on Vibrant Pet his hair was growing back and the sores were healed over. My retired altered Persians and Exotics main problem was digestion. Excessive vomiting and constant licking causing hairballs. After 6 weeks this group showed a significant drop in the excessive licking, itching and almost no vomiting. My Show adult and 2 kittens (Maine Coons) went to a show after they had been on Vibrant Pet for a month, Judges and other Exhibitors wanted to know (How did I get a coat like that on them?). The only difference was they were on Vibrant Pet Supplements. All my cats are now on Vibrant Pet Supplements. Even though I feed a high quality cat food (Royal Canin) I feel that Vibrant Pet supplements still enhance this food by causing better digestion and providing nutriment that the cat food does not have. GREAT PRODUCT! I recommend this product to all who acquire a kitten or adult cat from me.

Bobbie from Wisconsin

New lease on life!

I've never been a big believer in supplements of any kind, but since my dog started taking Vibrant Pets® Canine Athlete, I've had a change of heart. My eight-year-old Jack Russell Terrier is acting like an eight-month old puppy again. As promised in your brochure, her energy level is up, her coat looks healthier and feels softer, and her persistent scratching has all but disappeared. I would recommend Canine Athlete to anyone who wants to give a treasured pet a new lease on life. I'm anxiously awaiting the debut of Frisky Feline!

Sincerely,
Kathie Wason
Reston, VA

Hugh improvement in shedding!

Per the suggestion of the owners of The Doggie Wash, I put my very active Aussie on Vibrant Pet Ultimate Formula October 2006. In just one month have seen a huge improvement. As a puppy, he had surgery on both of his front elbows and has always had a sensitive stomach. Now he can run and play without being sore afterwards, his shedding is noticeably less and he is able to tolerate various people food and treats that he couldn't before.

I would strongly recommend this product to anyone with pets.

Claudia O. Pennie

"Supplement is a miracle"!

Hello Gena and Lee.....as I had stated in our telephone conversation your Vibrant Pets® Canine Athlete supplement is a miracle. Our Bichon "Teddy" developed a severe limp in his back right leg and was hopping on three paws. A neighbor of our's had the same problem with their Great Dane and recommended your product as the only thing that really worked. I must say that after 2 weeks the limp is gone and he prances along like he did before. "Teddy" also had severe skin reactions after grooming, Scratching to the point where he drew blood.....not any more!!!!!!!!!!!!!! Skin allergies seem to be a thing of the past.

Thank you so much for such a great product and "Teddy" thanks you also. Keep up the good work!!!!!!!!!!

Best regards,
Doug, Kathy, and Teddy Railo

Our little Corgi is back – Wish I could take Vibrant Pets®!

Dear Mr. Phillips,

Your little girl who works for you called yesterday to tell us there will be an increase in the cost of the joint & muscle formula. She told your name & to write to you personally. As I told her our little 12 yr. old Pembroke Welsh Corgi was having arthritis--usually when he tried to get up & down. Did not do much but lay around with no energy.

We took him to our veterinarian and She'd taken xrays. Agreed it was Arthritis. Gave him the first

pill--did not help him at all. Then we were told about a product for dogs & horses we got at a local farm store. Then the veterinarian gave him another prescription. Liquid this time. So he was taking 2 types of medications.

Then a friend told us about your joint & muscle formula. We took it out to our veterinarian. She said go ahead & give it to him. Five days after he started taking it he was running & playing with his toys--which he had not done for the entire summer. Thank you. Thank you. Thank you. We have our little corgi back again. He walks every morning with my husband as he used to. He has his Happy Little Self back.

I'm 71 & was diagnosed with Arthritis in both knees about the same time Murphy was diagnosed. Wish I could take your product & it would do me as much good.

Thank you again.

John & Leah SobjackDeining, Washington

p.s. He's also playing ball again!

Acting like a puppy again!

Dear Lee,

I can't thank you enough for allowing me to try Vibrant Pets® Canine Athlete Supplement. You suggested I try this supplement on my 13 year old Australian Shepherd, Heather, who was having difficulty with arthritis in her hind legs. After a couple of weeks on the supplement, she is acting like a puppy again. She can't wait to go out in the mornings to hang out at the barn and chase the chickens!! It's great to see her happy and energetic again. Vibrant Pets® has given her a new lease on life!

Thanks Again,

Shari Howell

Purcellville, VA

Hot Spots gone – Now has beautiful healthy coat!

We have been feeding our corgis Regal dog food and Total Pets supplement for several years now. Our male corgi, Rupert had hot spots that seemed to appear every summer. Since he has been receiving Total Pets he has had no further episodes and has a beautiful, healthy coat. He has also maintained an ideal weight on this diet, and a healthy corgi is a happy corgi!

Thanks so much for providing us with such good products for our dogs.

Melissa Weaver Dunning

Berryville, Virginia

Huge difference – keeps 17.5 year old in amazing condition!

I want to add my name to the growing list of satisfied customers!

I always have 6--7 senior goldens in my house at one time. Besides aiding in their overall well being, Vibrant Pets® makes a HUGE difference in the shedding! All my dogs have coats on them like expensive thick rugs and for the most part they shed very little....for that I am extremely grateful!

I use Vibrant Pets® Canine Athlete Formula.....it keeps my 17.5 y/o 'athlete' in amazing condition. I recommend the product to everyone who complains to me about 'allergies'.....just try it for a month, you'll be pleasantly surprised!

-Diane Lanigan

Saved me Vet Bills and medicine!
Good Evening Mr. Phillips,

I wanted to say thank you for introducing us to Canine Athlete. Dugan is a changed Sheltie. He is no longer itching and losing hair. His coat is shinny and thicker. Brushing is no longer a battle of pain with him. I can't believe how much money you have saved me in Vet bills and medicine. Thanks a bunch!

On a funny note...Dugan will not eat his food if it doesn't have his Canine Athlete on it. To him it is a treat.

Again, thank you so much. You have saved the day!

Yours truly,
Michael, Jenni and Dugan van der Kamp
Hoover, AL

It's a miracle – tear stains improved and acts like a puppy again!

Dear Lee and Irina,

I just wanted to thank you both so much for recommending the Vibrant Pets® Canine Athlete for my maltese. My maltese is 8 years old and came from a puppy mill, therefore, he has alot of physical issues. Since birth he has never been able to jump on the couch due to his joints in his knees. Of course that hasnt stopped him from jumping off the couch every time he sees a leaf blow by the window. Therefore, you can see where I'm going with this. I spend alot of my time picking him up and putting him on the couch all day long. This has been going on for 8 LONG years (he has me very well trained) That is, until you recommended that I start giving him the Canine Athlete. Well, I am usually the biggest pesamist, but you convinced me to try it and boy am I glad you did. It's a MIRACLE!!! It wasnt even a week and right before my eyes, he jumped up on the couch!!

He acts like a puppy again with such energy and he has that sparkle back in his eyes, oh and did I forget to mention, his tear stained eyes have improved at least 75%!!! It was so noticeable that my sister in law from out of town actually asked me about it before I could brag about this wonderful new product!!

This is such a great product and has definitely proven itself to me. I am starting my two Labs on it since they too have alot of issues. I'll keep you posted on their progress!!

Thanks again,
Your forever loyal customer
Robin Hall

No longer a grumpy uncomfortable girl!

My mother actually got a sample of your product at Expo East in Baltimore. Even though I am in the nautral health industry for people, I am always suspect. I started to give my malamute, who is overweight, with spinal arthritis and 13 yrs old and my retriever who has a torn, but mended ACL and is 9.....about half of the recommended dosage. I did see some improvement but as time goes

by you just sort of expect that.

Last night though it really hit home. The malamute was RUNNING down the hall and playing, she hadn't done that in a long while. It was amazing. Her mood and manner is much better she is no longer a grumpy uncomfortable girl.

THANK YOU SO MUCH for putting the zest for life back in her.

Kathy Martino

Dana Point, CA 92629

Gimps no more!

My six year old black lab mix, Marley, is developing arthritis in one of his back knees. The case became so bad that after a simple 20 minute walk around the block, he would limp around the house for several hours due to

his gimpy knee. We started supplementing his meals with VibrantPet about four months ago. The results have been extremely noticeable. His knee is still bulky from the arthritis of course, but his pain appears to have been reduced and he no longer limps as a result of walking or running around the yard or neighborhood.

We are very happy with the help and relief it has provided Marley.

Chris Thompson

Purcellville, VA

Supplement A Raw Diet

We are Sarah and Denis Scheele. We met you at the Natural Expo East in Baltimore last fall. Your product was of great interest to us because of our four rescuecompanion animals, all who are in agility training and competitions. We prepare and feed our companion dogs a raw diet, which has certainlybeen a blessing with the recent pet food scare. You were so kind andgenerous to give us a sample Vibrant Pet Athlete. The results ofadding your amazing product has truly helped all of our pups. Despitethe measures we take to ensure that the raw diet we prepare freshdaily, contains all of the nutrients necessary for the highest qualitydiet, Vibrant Pets® Athlete completes the balanced diet we prepare. Weare thrilled with the results of using Vibrant Pets® Athlete.

Our companion animals are all rescue - with very sad stories. We aretruly dedicated to providing them with the highest quality of lifefilled with love, affection, adventure and the best health andnutrition that we can possibly provide. Vibrant Pets® Athlete has trulyhelped us ensure that our companion animals are getting the propersupplements in their diet.

THANK YOU so much for providing such high quality supplements. We aretruly appreciative and will continue to use your product with greatenthusiasm. We are very involved in the agility community with ourcompanion animals and we have started to tell EVERYONE about theincredible results with VIBRANT PETS Athlete. Most of our friends feeda raw diet also...and based on our huge endorsements of VIBRANTPETS...they are interested in purchasing your product.

You may remember that we talked to you about the shooting death of ourbeloved companion dog SHADOW as we played with him in a church parkinglot while on vacation in Vermont. Our mission is to create nationallegislation recognizing the value of pets as companion members of

thefamily...not mere property. We are working toward creating The SHADOWLaw. We have made much progress with our case...which was covered nationally by the Associated Press and CBS News. Our case is moving forward through the court system. Ultimately, we will turn something so horrible into a positive that will help all companion animals...this is our way to honor our precious little SHADOW.

Thank you again for making such a fabulous product!

Sincerely, Sarah and Denis Scheele

Angel SHADOW, Lucy, Spirit, Sam and Lightfoot too!

Please visit www.justiceforshadow.com and help if you can.

I began using your supplement Canine Athlete on my Doberman in late September. You were kind enough to deliver a bottle to me the day before I was to leave on a trip and I started using it right away. It took about two weeks before I noticed the problem he had been having, diarrhea, was improving. Once he started to get better, he did so quickly and is now doing really well. He's off all the medications the vet had him on because he no longer needs them. Thank you so much. Your product has made a huge improvement in both my dog's life and mine. I'm still getting the supplement, but do so through Canine Caterers since I've also started using their food. I just wanted to tell you how glad I am that I found out about your company and product. I've told others and I already know several people who are starting to use it for their dogs. Thanks again.
Sandra Tugwell

Before Vibrant Pets®	After Using Vibrant Pets®

This is Kismet and the pictures tell it all.

PureZing Evaluated Vibrant Pets® Formulas and here is what they have to say:

Vibrant Pets® Canine Athlete

This supplement has it all! Containing special ingredients from the Show Dog and Joint and Muscle Formulas, this all-in-one supplement is perfect for the high-energy family pet, police dogs, and dogs that pull sleds or herd. Great for dogs that race or jump a lot, this formula protects muscles and joints from high impact while it boosts the dog's immune system and helps alleviate allergies. Filled with the same basic formula of 4 digestive enzymes, 21 vitamins and minerals and 4 probiotics, this formula has the best that the other two formulas also contain: coat and skin enhancers, muscle and joint protection and energy boosters.

No fillers, antibiotics, sugars, lactose, soy, wheat or corn, you can be sure that every ingredient used is not only human food grade, but is essential to your dog's well-being. Even though dogs eat canned food and dry foods, they were really meant to eat raw meat. Due to expense, convenience and today's life-style of dogs and their owners, most eat foods that are mass-manufactured.

A dog's digestive system is sensitive to a less than ideal diet and the stress of not being able to get enough nutrients shows up in dull coat, lethargy, diarrhea, itchy skin, shedding and ill-health. This supplement was created to soothe and boost a dog's digestive system which allows them to not only assimilate the nutrients in pet food, but the added nutrients in this formulation. Pure Zing's dog's used this product and the whole team saw a distinct difference in their coats, energy and alertness in just two weeks. Available in 8, 16 or 48-ounce containers, a small scoop is provided. One small scoop per meal is all it takes, and all the dogs loved the taste! With a complete, 100% money back guarantee, you have nothing to lose, and your dog has everything to

gain.

Vet, breeder, and groomer approved, give this natural, all-in-one supplement a try for two weeks and see if your dogs aren't more Zingy!

Vibrant Pets® Show Dog

The Pure Zing dogs aren't show dogs (they think they are), but this supplement sure gives them the look! Their coats are super soft and shiny now, they are more alert, and that's what can give a show dog the edge in the ring. We fed this to the Pure Zing dogs for two weeks. They loved the taste, ate every bit of it and it was easy for the team members to use: sprinkle one tiny scoopful onto dry or canned food, starting with half a scoop for the first few days.

The texture is slightly grainy, but is mostly a powder; is beige and has sort of an oatmeal smell. Available in 8, 16, or 48-ounces, the scoop size is so tiny that a container could last a long, long time! It's really hard to believe that results can show up in just two weeks, but dog's digestion is different than ours. We eat a meal and eliminate it 40 hours later. A dog eliminates their meal in 12 hours. Since the food moves through them so much more quickly, they have less time to extract the nutrients from it.

Hence, if their digestion is impaired, they get even less nutrition. The results are lack of energy, a dull coat, joint problems, itchy skin, and health problems. This formula is all-natural, has no fillers, sugars, no lactose, corn, wheat or soy. There is no bone meal, antibiotics, or anything that does not have a positive effect. The ingredients are human grade and flaxseed and biotin are added to the basic formula of 4 digestive enzymes, and 21 vitamins.

This all-in-one supplement also contains sodium silico aluminate, enterococcus faecium, lactobacillus acidophilus, lactobacillus casei and lactobacillus plantarum: probiotics that keep the gut flora healthy and which help increase nutrient absorption by 20%. If your dog is a show dog and you want the winning edge, we can highly recommend this all-in-one supplement. Used by vets and breeders, we were impressed with the dozens of testimonials that attest to the real difference that this all-in-one supplement makes in their dogs looks and health. With a complete, money back guarantee if you are not fully satisfied, you have nothing to lose, and your show dog has everything to gain!

Vibrant Pets® Joint & Muscle

Breeders, vets, groomers, and owners have written dozens of letter concerning the amaZing and positive effects that they have seen in dogs that have used this product. Great for dogs that are older, overweight, recovering from injury, have hip dysplasia, joint stiffness, sores, low energy or dull coats, this all-in-one supplement has been proven to reduce or eliminate those problems when added to a dog's daily diet.

Before you start worrying about hype, this product comes with 100% full money back guarantee! The owners know that this product works for 99% of the dogs that it is given to and for those that it doesn't, the owner gets their money back. With nothing to lose, you could easily see if your dog's problems could be helped by this product.

The formula is all-natural and does not contain any products that are not of benefit to your dog.

Using the regular formulation of 4 digestive enzymes, 21 vitamins and minerals as well as 4 probiotics, this all-in-one supplement also contains chondroitin and glucosamine.

Without sugar, soy, wheat, corn, lactose, or antibiotics, your dog is only getting valuable and much needed nutrients, at the same time that their digestive system is being soothed and boosted.

When a dog's digestive system is helped to work at peak level and they are supplemented with valuable vitamins, minerals and probiotics, they can get better quickly!

Dog's food only stays in them for 12 hours, versus 40 for humans. They have far less time to

absorb vital nutrients than we do. If their digestive system is not strong or is not functioning well due to diet, age, or stress, their whole system is compromised, resulting in health problems, aches, sores, diarrhea, low energy, and dull coat.

In an 8-ounce container with a small scoop, the beige powder is slightly grainy and smells vaguely of oatmeal. Use one scoop on dry, canned food or raw meats and watch your dog eat every bit of it! Give it at least two weeks to see results, and you just might be amazed to see the dog that had trouble walking, suddenly running around in the back yard!

Try this all-natural supplement for two weeks, and if you don't see a reduction in joint pain and swelling and see and increase in mobility, get your money back in full.

Vibrant Pets® Frisky Feline

We're impressed! We took the challenge and gave this powdered formula to our two test cats and within two weeks, their coats were shinier, there was less shedding and they definitely had more energy! Both cats love the supplement and eat every bit of it. The all-in-one supplement is beige in color, has a tiny grain to it, and reminds us of the smell of oatmeal.

The jar comes with a tiny scoop and starting off with just a quarter scoop, we increased it over the course of the first week to half a scoop. Just pour it over the cat food (dry or moist), and that's it! The cats eat it all up and seem to love it.

Just half a scoop per day for two weeks and there is a decided difference, but our team also liked the fact that there is a 100% money-back guarantee if we did not feel that the product worked. Not only does it work, but also it's simple and natural.

The ingredients are a proprietary mix of 4 digestive enzymes, 20 vitamins and minerals, chicken liver digestive, cetyl myristoleate, glucosamine sulphate, kelp powder, yucca schidgera extract, chondroitin sulphate, sodium silico aluminate, flaxseed, vitamin E supplement, biotin, enterococcus faecium, lactobacillus acidophilus, lactobacillus casei and lactobacillus plantarum. All of these ingredients have been specially chosen to address the digestive system of your cat, allowing more nutrient absorption than ever before.

This formula enhances the immune system, protects your cats joint and muscles, and gives them a shiny coat and healthy skin. The result of all this is a cat that feels better, has more energy, is more playful.

We have read all the testimonials from vets, breeders, and owners. We agree with them: this product makes a noticeable difference in just two weeks. Glossy coat, clear, non-itchy skin, more energy, and more playfulness. This is like a super vitamin, digestive, and energy booster all-in-one.

Summary: The above testimonials have been posted to provide pet owners with specific dog health information, and alternative solutions to a variety of dog health problems, including but not limited to dog allergies, dog injuries, dog skin problems, dog sores, and other dog health issues caused by poor diet. The Vibrant Pets® feline formula is new, but expected to achieve similar results.

Testimonial:

All my dogs use Vibrant Pets and have since the product first came out. My dogs are given Canine Athlete. As a show exhibitor, my dogs have wonderful coats and skin that really give them an edge in the ring. My male also does agility and at the age of almost nine years, he still runs a course like a young dog. As a breeder, I give all my puppies Vibrant Pets and all my puppy owners are strongly encouraged to use it, as well. I now have three generations of dogs on Vibrant Pets and all are extremely healthy. This product does everything it says it will, and more!

Karenjean Krammes
Lighthouse Chinooks
Member – Board of Directors, Chinook Club of America, Inc.

Thank you again for the product. Update is as follows.

Physical change. Total mobility seems to be improving, he doesn't seem so crouched up all the time. Seems a bit lighter on his feet. Energy seems to be increasing. Coat and redness is slightly improving.

Mental change. He seems to be happier overall. Is barking more due to increased energy.

I will be taking him for a run this afternoon for the first time since he's been on vibrant pets to see how his overall mobility is. I'd say overall he is improving but I am only giving him a maintenance amount to test the longevity of the product for the entire kennel. Just 1 scoop in the morning and another in the evening.

Thank you very much again. And next Tuesday is the 2 week mark and I planned on taking progress pics then.

Jon

Hi,
I can not say enough about your Vibrant Pet canine athlete. My 9 yr old Irish water spaniel was having skin problems and severe loss of fur. On the recommendation of my groomer we tried your product. The results are amazing, not only have all the skin issues healed but he has grown back all of his fur and it's a rich brown puppy color!
Thank you!

I am very glad Vibrant Pets is offering a Senior Line now! I already put my order in! ;-) I've attached pictures that prove Vibrant Pets is has helped my Maggie! The pictures are of my 7 year old Maggie at the park before she started taking vibrant pets and months after taking it. You can tell in the before pictures that Maggie is in pain when she walks. She always appeared to be tired as well. She would sulk at the park and walk like an old lady! After Vibrant Pets she is Vibrant again! You can tell in the after pictures she is perky and alert with absolutely no stress in her posture! Thank you Vibrant Pets!

Hi,

I just wanted to thank the people at the Doggie Wash for introducing me to Vibrantpets. I was racking up some pretty high vet bills because of my Cocker Spaniel's skin problems. I was told in two weeks I would see a difference. I was willing to try anything. I have to admit, it did take a bit longer than two weeks for us, but now her skin is so much better and her coat is soft and shinny. I have not had to make another vet visit for a skin problem since I started using it. I showed the product to my vet and he said to keep giving it to her. You bet I will.

Thanks again,
Louise Priest
Purcellville, VA

Dear Vibrant Equine,

I must tell you how much your supplement has helped my horses.

The first horse I put on it was my yearling colt Ghouda. When I bought him in September 2007 he was very skinny and had colitis, my vet and I treated him from October 2007 to April 2008 with no avail. So after talking with you and seeing results from your other clients I decided to try it on him. Within three weeks he was putting on weight and the colitis had cleared up 100%.

I then decided to put all my horses on Vibrant Equine, most of them where allergic to gnats and had before now bleached out during the summer. After about three weeks they all picked up weight, their coats looked great, and there hooves where stronger and growing about 4 times as much as normal.

I have been so pleased about how your supplements have worked for all my horses. I cannot thank you inouff for introducing me to your wonderful supplement. Both my vet and farrier both agree that since putting my horses on Vibrant Equine that they have all improved so much, and have continued to look wonderful.

Again thank you very much,
Amanda Smith
ACS Hanoverians

Good Morning,

I started giving my 14 year old Boston Terrier Vibrant Pets that I purchased from Canine Caterers a year ago. At first he had so many issues I didn't see any difference. Stop using it and this past January I started using it again. What a major difference and I feel like an idiot for not keeping up with it the first time. He acts like a puppy and no more diarrhea. I adopted him a year and a half ago and he had diarrhea the whole time. So this is a very big deal to me. He has more energy and all he wants to do is play. I feel like I have a puppy instead of a senior dog.

I suggested my sister try it for her dogs as well. Yesterday my brother in-law wanted to know what kind of drugs I brought over. He said that there dogs are acting like puppies again. Both are pits that are overweight and think they are lap dogs! My sister said that her male has had loose stools in the past and not now.

I can't tell you enough how much I appreciate your commitment to making a difference in the pet world. I don't know that I have been this passionate about anything in a long time. I tell everyone I talk to that has dogs that this is the best product and don't wait for health issues. Start using it now. Why wait. Don't wait to see the pain. Reap the benefits now of a happy healthy pet!

If you have information that you would like distributed to Veterinary's in the Fredericksburg , Stafford, Spotsylvania and Woodbridge areas I would love to help. You can call me on my cell phone 540-220-1201

Thank You,

Ginger Cole

About 3 weeks ago I agreed to foster a young male Tibetan Terrier which was rescued from a puppy mill in Missouri.....along with the other 17 TTs this little guy was in horrible condition in every sense of the word! His coat and skin had never been bathed before and was in extremely bad shape.....I cannot tell you just how heartbreaking it was to see all of these dogs neglected like this.....I have been raising and showing TTs for over 20 years now and have a very strong passion for dogs in general....I am also a professional handler, trainer, and groomer by trade.

A few months ago while attending a Pet Expo in New Jersey I met with one of your sales associates and purchased a container of your product for show dogs. Since I already was on a supplement program with another product I wanted to wait until I had run out of my old product before starting the new product I had purchased from your company.....When I brought my foster dog into my home I immediately started him on one small scoop per day as instructed by the directions of the container.....Having faith in your product based on the ingredients and my conversation with your associate at the Pet Expo I waited a few days to see if I could see any change in my foster dog.....I am shocked to say that within two weeks not only has his overall appearance changed but his skin and coat look amazing! I brought him out with me to a function where other TT owners would be and they were also shocked to see just how good he was looking in such a short time!

I just ordered more of your product and plan on putting ALL of my 4 current show dogs on your system....

Thank you,

Rus and "Maroo" (my foster TT)

Dear Lee and Irina,

I promised you that if the Vibrant Pets formula worked, I would write a testimonial. I started using Vibrant Pets a month ago, and the reason I've been delayed writing this is because I've been hawking Vibrant Pets to every pet owner I know!

I own three Shetland Sheepdogs. Bits (3) and Annie Laurie (6) both have joint issues, resulting in stiff gait, limping after strenuous exercise, and pain. We'd been giving Deramax, but that didn't address the problem. Flash forward to two weeks after using Vibrant Pets Joint and Muscle formula. The problems are gone! We have seen no limping, no stiffness, no evidence of joint pain in either Bits or Annie. Bots Shelties are running and playing as they haven't since they were puppies. Excess weight is gone, and healthy muscles are underneath gleaming coats. We're back to long hikes in the woods. Layla (3), our third Sheltie, is now on the Canine Athlete formula (thanks, Irina!). She's thriving.

I've shared this with members of the Sheltie Nation forum, which reaches Sheltie owners around the world, as well as dog owners where I work. My friend whose Sheltie has cancer is using Vibrant Pets now, as are many friends. I can't praise you enough for this incredible supplement. Thanks so much!

Warmly,

Chris

Christina L. Lafferty

A number of years ago our dear friend, Albert Townshend DVM, asked us to place our welsh corgi, Chase, on your product. He was testing for you and wanted to have feedback about an animal he was intimately familiar. I reluctantly agreed not wanting to test a new product on our beloved pet, but I, too, was familiar with and taking probiotics. I understood the power of providing the body with the necessary support to absorb nutrition and would never have thought of withholding such an opportunity from a family pet.

My intuition, Al's choice and your product have ushered Chasie comfortably into her 14th season. She is virtually pain-free at 13+ and moves around with ease--not leaving all of her puppy behaviors behind. I give you tremendous credit along with good genes and feeding her a superior food product, Eagle Products (now WellPet).

I own a Curves franchise and tell my members that their choice of gas octane for a vehicle is easier for them than the choices of personal food and supplementation. It often hits a high, albeit painful and familiar note with each of them. There is no difference with the choices for a beloved pet. Although I bristle at cliches--"You are what you eat..." it is only stated more strongly when "...supplemented by Virtual Pet Canine Athlete" is added to the statement.

This support for your products and the folks with whom I chat when ordering is unsolicited. As a cottage industry and situated in my home state of Virginia--you will always have a special place in my heart.

Thanks.

Suzanne Moore

Hi,

Our sincere thanks for in June sending to us your Vibrant Pets Joint & Muscle formula. That, plus the Show Dog mixture, seems to be doing wonders for our very old and beloved labrador, Ben - our friend and family member. He looks great for a 14 year old and seems to be gaining his feet much more easily than before. As you recommended, we give him a mixture spoon of Show Dog in the morning, and one of the Joint & Muscle formula in the evening with each meal.

Roy & Lesley Van Riper
Whidbey Island, WA

I've been using Vibrant Pets for 3 years on my dogs. This product helped save my dog's life. She has a condition called SIBO - small intestinal bacteria overgrowth. She would eat and not absorb her food - terribly loose stools and she looked like a skeleton. My vet told me she would have to be on antibiotics for the rest of her life. Not anymore! I double dose her with Vibrant Pets. Since using this, no more loose stools and she looks great! Thank you Vibrant Pets! Highly recommend!

Dear Vibrant Pets,

Thank you for donating your product Healthy Joint for my Rescue Kitty Tabby. He somehow had torn his A.C.L. and my vet had recommended surgery which I am unable to afford due to being unemployed. He had suggested to see if scar tissue would form and eventually hold his knee in place and to try and find a quality joint supplement product he would take to see if it would help. I search several products and tried a few without success. I found your website and called to see if the Healthy Joint could be used for cats. The gentlemen I spoke to said most definitely and since Tabby was a rescue they would donate the product.

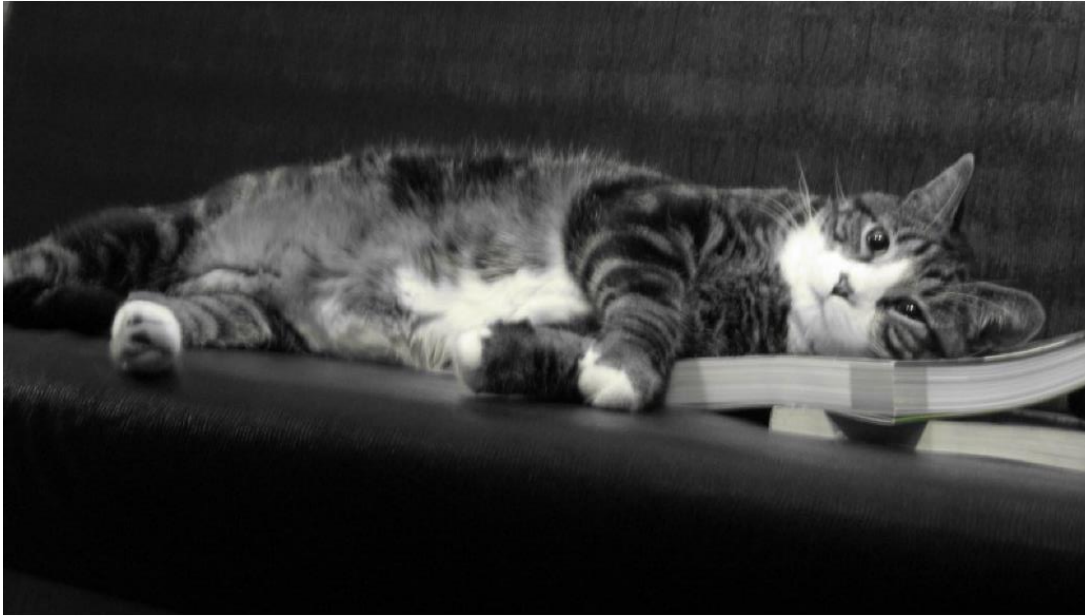

He has been taking 1/2 scoop since 9/23/09 and since then he has gone from being a couch potato to become more active and walking around and even starting to jump short heights. I am very careful about letting him jump, as I do not want him to damage it any further, but he is almost back to normal in such a short amount of time. I was afraid that he may have to be put down as he was in a lot of pain. I cannot thank you enough for your product and helping him get his mobility back.

I have been also working on his diet as he needs to lose a few pounds. He has always been a large cat 18lbs since I rescued him!!! He was getting 3/4 cup of Science Diet Mature dry food but has been reduced to 1/2 cup.

I have attached a couple of photos of him for you to see what he looks like!

Thank you once again.

Candy & Tabby Peterson

Thank you for your follow-up on Maggie! It means something when a company genuinely cares about their clients well-being! With that said, I'd be glad to answer your questions. I did initially order Canine Athlete. When I ordered Canine Athlete I debated buying the Joint and Muscle, but I ended ordering Canine Athlete anyway (I think because I'm in denial that my dog is aging and entering her senior years lol). After using Canine Athlete, Maggie perked up in a matter of weeks! She was sooooo much more energetic and youthful! With her new lease on life, Maggie wanted to play much more (which I'm ecstatic about). It was during one of our frequent play sessions that I noticed she was still having joint issues (from a previously broken leg). My vet prescribed her rimadyl, but after researching the drug I decided it wasn't the best thing for Maggie. Whether it's arthritis or an incorrectly healed joint, she skips a step on the affected leg every now and then. There is still a big lump in the affected leg which leads me to believe it didn't heal back correctly (and I'm sure there is some arthritis present as well). Anyway, this is why I ordered the Joint and Muscle formula. I've convinced myself though, that my dog is still young and lacks anything of senior status ha ha. It's too early to tell how well the J&M formula is working, but I have a pretty good feeling about it - because after all, Vibrant Pets is the REAL DEAL! I will certainly try to let you all know how Maggie reacts to the J&M when the time comes. I want to thank you and your company for all that y'all do! Maggie definitely wouldn't be the same without the Vibrant Pets Family! Just in case you were curious, here is picture of Maggie prancing around at the park. Thank you again.

Chad Romines

When Truffles developed a serious skin condition I tried your product. I think the pictures before and after say it all. I now use Vibrant Pets every day to make sure Truffles stays healthy. Thank you Vibrant Pets for making my best friend healthy and happy again.

First of all thank you, I did receive my supplement for my dogs very quickly.

I took my time replying regarding your horse supplement. I wanted to wait a bit longer. I think must be at least 3 weeks, I am giving him two scoops/day, one scoop am and one scoop pm.

I am definitely seeing his digestive system so much calmer. His pet name is Monte and he is almost 14 years old. He has tendency to have allergies (I understand there is some kind of grass or fungus and his cheeks puff up). I use sheepskin wherever possible. Overall, its not bad, I am just aware of these issues. He is also a cribber. Same time he is a fabulous mover. I do work him 6 times a week, so he is in a good, physical shape. Prior to using your supplement, I would saddle him and just about to start work, he would poop a lot and often had tons of gases.

Since past week, I must say he looks great and his digestive system is not acting up. I will keep you informed as we go along, but so far so good. I hate to jinx anything so I am quietly observing.....

Thank you again, Longina

PS you know thanks to you guys my 13 year old big dog is doing beautifully!!!! and the young one, 4 years old, fox hound, is also on it (I give him slightly smaller portion, also twice a day) because he had constantly indigestion. Since, being on your supplement, he has no issues!!!!!!!!!!!!!!!!!!!!!!!!!!!!!! Only if he really gets into trouble.

Thank you so much!! Longina

Love the product. Bought it first at a dog show in King of Prussia to try to help my Golden Retriever (Buster). He has skin allergies and I have tried pretty much everything else for him. Within two weeks he was improving and now his hair has grown back where he had scratched it away. He still itches but not nearly as much and not to the point of hurting himself.

Glad I saw the booth at the show and will be reordering as needed.
Thanks
Donna

Testimonial: Dilligad Pet Food Distributors

We're a private company located in Sanford, North Carolina and provide premium pet food and pet supplement products. We've carried Vibrant Pets since the company's inception in 2005 and have watched our sales of this wonderful product grow. Once someone has tried it, customers are very loyal to Vibrant Pets, buying it for the life of

their dog, cat or horse. We have Dilligad retailers throughout the Carolinas and in Virginia and Kentucky and all of them carry Vibrant Pets. We are also vendors at dog shows from Georgia to North Carolina and we always make sure we bring plenty of Vibrant Pets as it is often a sellout.

But we are more than just a company; Dilligad is also the name of our kennel. We breed champion Kerry Blue and Fox terriers and despite the fact that we have easy access to other supplements, all our dogs are fed Vibrant Pets. We know our dogs are getting the best in nutrition with Vibrant Pets and it shows in their continual good health, bright eyes and wonderful coats. We recommend this product to all breeders and owners whether they are looking for a winning edge in the show ring, raising strong pups, addressing various health issues, or giving their pet a lifetime of health!

Dilligad, Ltd

I would like thank you for such a great product. I have a german sheperd that has hip displasure. he was limping badly and looking at surgery. I was attending a dog expo and came across your product and decided to give it a try. Within a week, to my utter amazment, his limp was gone. When i took him to vet for a recheck, he wanted to know what i did with the real Capone.

Capone is two now, he runs and jumps like a young dog should. I would highly recommend your joint and muscle supplement to anyone who has a pet with similiar pain. Your product trully works!!!

Thank you again
Kathy Penna

I have a twenty year old gelding who was looking and acting as though life was getting the best of him. He was lethargic and lame from navicular issues. The most concerning attribute of this down hill slide was the look in his eye. He seemed to have no vitality. Because of the lameness, I was thinking that the day for making big decisions was fast approaching. A friend took him to her farm and put him in a small, very muddy paddock for two to three hours a day. Over that 8 months he got better and better. I was able to ride him again. Always looking for ways to improve his well being, I was enthusiastic when Lee Phillips mentioned that his older horse was on the Vibrant Equine supplement and was acting like a young horse. I took some and gave him the required dose that evening. Over the next couple of days I was amazed at the difference in my horse. We seemed to have helped the navicular issue by letting him stand in the mud for months, but the difference in his attitude, energy and over the next several months, his youthfulness was striking. He is now almost a year older and doing fabulous. He is keeping up with the young horses in the field and seems to have a zest for life that had been missing for several years. I will keep him on this supplement forever.

Toni Lynn Chinoy
Bentonville, VA

Dear Lee,

Per our conversation today, I just reordered the Show Dog Formula. I am so pleased with your Ultimate Show Dog Formula (I received at the Just Dogs Gourmet meeting this past summer). Our dog Dylan is half Welsh Corgie and half Rat Terrier, and until I discovered our Pet Botanica shampoos in January of 2006 he was constantly itching and had hot spots.

Last year this time, I was approached by Diana Makeig, President of Pet Botanica for a position with the company. She had me try the Sensitive Skin Shampoo on Dylan, and it got rid of all of his skin problems almost immediately.

When I met you in West Virginia, Dylan's skin and coat were beautiful, but he still had redness inside his ears (despite a good diet). He had previously had yeast and ear problems. So we immediately started him on your formula and within 2 days his ears were no longer pink! He has been totally healthy and beautiful since.

Lee, I do not know if you would be interested in carrying our shampoos, but I think it is a great way to have a healthy dog inside and out! I have attached our Wholesale Sell Sheets to give you an idea of pricing and products. Thanks for your consideration.

Nancy Matherly Green

Hi Lee

My name is Hal Lymus and your company was referred to me by a very close family friend who is aware of my canine training and handling background. His name is Albert White who is President of the marketing firm who is working with you and your products. He has sent me samples of your products to try with two of my dogs on an experience basis. I find your product to be exactly what it claims to be with very favorable results. One of my dogs is aging with arthritic and skin allergy problems. He is coming up on 12 yrs of age. He has demonstrated a lack of mobility due to his arthritic/dysplastic condition. I have used both the show dog formula and muscle/joint formula on him with very satisfying results within 10-12 days. His coat (which shed alot

due to his allergies) now has a nice coat and has decreased his shedding quite a bit with only the trial sample I had to use on him. I also gave him the muscle/joint formula and have notice a sharp increase of his mobile activities. Seems like he took on a new lease on life. smile. My other dog whom I am currently competing with was also put on both formula's and I have noticed even more vitalization than ever before. He physical condition is super and his coat looks much better than ever before. He will be competing at this years USA German Shepherd Dog Championship in Gadsden Alabama from 10-12 November. I plan on continuing using your formula's with both dogs in the future.

I mentioned to Al that it might be a great idea for you to subscribe for a vendor space at this prestigious competition because all the top breeders, trainers and handlers in my sport will be there and offers a great opportunity to promote your great product. For more information on how to acquire this space, go to www.germanshepherddog.com which is the website of my organization. (United Schutzhund Clubs of America). Click on EVENTS, then click onto NATIONAL EVENTS, then click onto the GSD CHAMPIONSHIP page. I believe they are offering 2 space sizes), but like I said you should contact the people who are hosting the event for more information regarding vendors. Vendor spaces are available on a first come, first serve basis, so look into it ASAP if you're interested in participating. As I previously mentioned, my dog will be there for people so see for themselves what your supplement formula's can do for a dog. I also feel it will be a great opportunity for you to enlist interested parties in distributing your products since most of the people in attendance will be from all over the United States and these people are the primary people who have the need for your products.

Al gave me the contact information for me to get in touch with you so we can get together and discuss more regarding your products. I can easily endorse it from what I have seen so far. If you are interested in helping to sponsor us at the nationals it would be greatly appreciated. Anything helps when it comes to airfare, hotels auto rentals and entry fees, but the main thing is that I am interested in your products and hope that perhaps we can talk in more detail about it. (Hopefully at the nationals). My phone number is (360) 491-3500. My email is: huttwo34@comcast.net.

Sincerely,
Hal Lymus

Dear Vibrant Pets,

My husband and I adopted Mason, a Mini Schnauzer-Scottie mix months ago from a rescue league helping animals of Hurricane Katrina. After welcoming Mason in to our home we soon realized that he had many more problems than we could have ever imagined. Mason was completely covered in small bites and his skin was extremely dry, his fur would fall out in clumps. I began looking for supplements to give him to help the many ailments he possessed. As you know there are so many products out there promising the world. So often leaving you disappointed and again searching for that one miracle product. Finally after months of research, trial and error we have found that miracle supplement. I am so truly grateful that Lee and his staff at Vibrant Pets care as much about my family as I do and have created these products. Vibrant Pets enables our dogs to live the healthy life they deserve.

Lee, my husband and I can't thank you enough. I now have two very healthy animals with a bounce in their step and a healthy sparkle in their eyes. I am also very pleased to see that even the burn spots left by my two little darlings on the lawn have completely

disappeared, leaving a fresh green lawn for the dogs to play on. My husband, Bailey, Mason and I thank you!!

Coat/Allergies/Activity Level/Digestive Problems

I extend my sincere gratitude to LEE and Irena at The Doggie Wash for suggesting Vibrant Pets Athlete for our dogs!

Granted, my initial response was that of reluctance. We have a menagerie of wonderful dogs, all from a rescue shelter, each having their own health issues. Solving these issues can become a menagerie in itself.

Since starting our dogs on Vibrant Pets Athlete several months ago, I have seen a noticeable difference in all of our dogs almost miraculous. They began responding almost immediately.

Once again, our Terrier has hair, very soft hair! Truly, she did not need more bounce in her step, but it's there! Allergies contributed to considerable hair loss, especially in the Spring and Fall. We had tried everything, including prescribed medications, not to mention chamomile tea baths.

Our older hound responded after only three days.

Forever, he's had a sensitive stomach, often resulting in vomiting and diarrhea. Through the years, we've tried many different dog foods, holistic, naturals, etc. He does wonderfully on Vibrant Pet and no longer has diarrhea or vomiting as a result of his diet.

All of our dogs have brighter and softer coats, more agility and anticipate feeding time, even more, if that's possible.

With Gratitude,

W. Napier
Leesburg, Virginia

Seizures

Just wanted to let you know, I have an 8 year old Siberian Husky who began having seizures approximately once a month since he was 4 years old. Several Veterinarians suggested Phenobarbital and gave me prescriptions to keep him from having the seizures. After trying the pills for 3 days, my buddy seemed like he was a zombie,

which they assured me would level out after he was "use to" the medication. Additionally, my own research indicated that we would be trading one problem for another down the road (a compromised liver).

I made the decision we would keep things natural without drugs and keep searching. We have lived with full blown Grand Mal Seizures like clockwork every 4 to 6 weeks for the last 4 years. One day at the Doggie Wash in Purcellville, Virginia, I was talking with Lee Phillips and he suggested that I try Vibrant Pets Canine Athlete Ultimate Formulas. I was skeptical, but have never given up hope on trying to help Denver. We began giving it to him that evening and he has not had a seizure since, which is now going on 7 months straight.

Denver and our German Shepard, Yukon will remain on Vibrant Pets Ultimate Formulas for as long as they live.

We can't thank you enough from the bottom of my hearts.

Sincerely,
Leisa and Greg Sutherlin
Leisa Sutherlin [leisa@aboutfaces.net]

(See saved Picture)

Dysplasia/Joints/Activity Level

My Saint Bernard has suffered from hip dysplasia since birth. The breeder offered to give us a free puppy upon showing proof that we had put him down. We were aghast to say the least. Soon after, we started taking Ulysses to the Doggie Wash in Purcellville, Virginia, for the best bath in the state, whereupon we were introduced to Vibrant Pets Joint and Muscle Formula. We immediately put Ulysses on the supplement, and were happy to see improvement, therefore avoiding pain medications.

Since using the new, improved Joint and Muscle supplement, he has increasingly become more energetic and playful. He receives three scoops per day in his food. My children immediately recognized that the new formula no longer has a strong medicinal smell, and constantly remark that his fur gets softer everyday. Most importantly, Ulysses leaves no supplement behind in his pan at mealtime.

Thank you, Vibrant Pets, for caring about the health and nutrition of our pets and best friends!

The Paulovkin Family
Suzyrp@aol.com

Skin/Coat/Allergies

I have been a dog owner for more than 25 years. I own two Shih-Tzu's at the present time. One in particular has had a skin allergy since he was a puppy. The skin

becomes red and itchy and the dog pulls the hair off and makes a bare spot. When this happens, we would have to make a trip to the vet for a cortisone shot and pills. This happened quite frequently and it was hard on the dog. My dog groomer introduced me to the Vibrant Pets power formula. Since I have been using this product, my dogs skin condition has improved greatly. We have not had to make trips to the vet for expensive shots. Both dogs coats have improved. I showed this product to our veterinarian and he said the ingredients were all natural and with these results to certainly keep giving this formula to our dogs.

Skin/Coat/Joints/Chronic Sores/Cancer

My 11 year old blue Doberman Garth was, lame due to a neck injury, bald, with pressure wounds on his elbows. I was told when he first went down that her would only have a couple of months to live before his organs would fail due to his lameness. He had been bald for years, the vets all said "Blue Doberman Mutant Freaks". In order to be blue they have genetic defect that affects skin and coat. Most blue's are bald or very thin haired at mid life or so. I carried Garth outside for his potty breaks and had to support his body while he did his business. This was no easy task, Garth weighed in at about 90 pounds. His pressure wounds were a result of his down time. We tried every brand wound gel and homeopathic wound products known to man kind. Nothing seemed to help heal his elbows. Garth continued to eat and drink and have a real zest for life, I refused to put him down as long as he was acting like himself.

My mother had told me about a new product called Vibrant Pets that she had just purchased. I started to use Vibrant Pets Canine Athlete Formula. I could not believe the results, and neither could my veterinarian. Garth began to first grow hair, where he had been bald for years. Even in the early years when he had almost a full coat of hair, even his sides. I began to notice that Garth was starting to use his hind legs to better position himself in his bed. In the next 2 months Garth had regained so much strength and movement in his hind legs that he could stand on his hind legs while I supported his front. This was a huge blessing; it made holding him for his potty breaks so much easier. The pressure wounds that had responded to nothing were slowly now healing. The new skin growth on his elbows was slow but steady. All of the improvements came only after using Vibrant Pets.

AT 13 years of age Garth was diagnosed with bladder cancer. We began to use cancer medicines, and was told to expect his health to begin to decline. Garth lived an amazing 6 months after this diagnosis was given. During the 6 months he never showed any standard bladder cancer signs. There was never any foul odor in his urine, and almost no blood was visible. Once again the only explanation can be the Vibrant Pets.

I am sure that Vibrant Pets gave Garth 2 very good years of life. He was said to be "down for the count" at 11 years of age and he lived to be 13. When Garth had to be seen at the veterinarian's office, all of the doctors would come to visit him, to see the dog that had defied all the odds for years. I still use Vibrant Pets on my remaining healthy dogs, and they shine and are so soft that people always ask me what I give them. I recommend Vibrant Pets to everyone. I can't thank this product enough.

Sincerely:

Wendy Skelly

February 17, 2006

Dear Lee,

I just wanted to let you know that we have tried your product on several animals in our clinic and have found it to work well.

Older dogs with arthritis have found relief. Shedding has been reduced, and the animals generally seem to feel better.

Owners report that the animals are more active and alert and generally feel better.

Thanks for a great product1!

Most Respectfully,

Dear Purveyors of a fine product,

I want to write you and let you know that you saved one of our dogs. Taz was rescued from a meth house in Iowa 7 years ago. My wife's best friend was the one who saw him and realized he needed a better home. He was 6 months old. About 2 years ago she and her husband fell on financial hardship and my wife offered to drive to Chicago to get him. He was an instant hit with our kids and our other dog, Caleb. When we got him he was very overweight, because he had to be fed table scraps. We knew he had bad hips and tried a several methods to help. He went on prescription meds. They made him throw up. We tried another over the counter med (aspirin coated in mylanta). It made him throw up. We tried glucosamine/chondroitin from a mega chain pet store, it did nothing. Finally while at a store in Purcellville, VA and saw Vibrant Pets, joint and muscle formula. Since being on this he is a different dog. He is full of energy and spunk. Although he is still overweight (a continuing battle) we hope that he will be with us for many more years thanks to your product.

Sincerely,

Dave Davoudlarian & Taz

Courtney Wayland <cdwayland2@gmail.com>:

Sent: Wednesday, February 22, 2006

To: The Doggy Wash - Purcellville, VA

My dog, Fred, has been taking the Vibrant Pets - Canine Athlete formula for the last several weeks. I noticed a difference after the first few days that I started mixing it in with her food. Being 12 years old, Fred had the typical joint issues that come with a dog of that age (limping, easily injuring her legs, etc). After starting her on the Vibrant Pets she literally seemed to revert back to how fit she was at age 5 or 6. She no longer exhibits any signs of limping or soreness in her joints. She tears around the back yard like a dog half her age. It's wonderful to see a product that could give so many years back to her. Thank you so much for turning us on to this wonderful product. You have a new constant customer!

Thank you!

Courtney Wayland (and Fred)

Joints/Hips/Skin/Coat

September 11, 2005

As all experienced Groomers and Pet Stylist know, most dogs that we care for have problems that need addressing. Everyday we have clients come into our shops with dogs that have a multitude of health conditions that should be corrected. Groomers and

Pet Stylist are mostly concerned with the dog's skin and coat but, as dog lovers, we are equally concerned with the dogs overall health. I have been recommending Vibrant Pets supplements to my clients for five years and my clients find it as close to a miracle cure as you can find.

We have three Kerry Blue Terriers that take Vibrant Pets every day. All three, including our oldest 6 year old Kerry, run and play like a puppies and all three have a luxurious coat. I recommend Vibrant Pets to most of my clients and I have seen a significant positive change in dogs that regularly take Vibrant Pets supplements. In one case I have a client with two Cocker Spaniels and one of her Cockers developed a joint problem and their Vet recommended surgery. Two weeks prior to the dogs scheduled surgery they scheduled a grooming. After the grooming I recommended that they try the Vibrant Pets Joint & Muscle supplement and they bought a bottle. They took their Cocker for the scheduled surgery and returned home. When they returned home the Vet called and told them to pick up their dog as he did not know which side to operate on as the dog appeared to be normal. By being able to recommend and sell our client Vibrant Pets supplement we were able to save our client money and more importantly the dog did not have to go through the trauma of an operation. Vibrant Pets supplements have helped more of our clients then I can count. We see better coat conditions everyday. We notice that our clients' pets are getting healthier and joint and muscle problems are reduced.

My clients report that they see the positive results of Vibrant Pets supplements within two weeks. We wanted to test just how good Vibrant Pets really is so we asked The Friends of Homeless Animals no kill shelter if we could put six of their dogs on Vibrant Pets. With their help we picked six dogs with severe health problems. Two dogs had hip problems so severe that they could hardly walk, two had bad skin and coats and two had a combination of both joint and skin/coat problems. Within 10 day the shelter called us and asked what was in Vibrant Pets because they saw a significant improvement in all six dogs.

Vibrant Pets is so sure of their supplements that they guarantee their products to "do what ever the buyer expected the supplement to do". In five years of selling Vibrant Pets only a few have been returned to The Doggie Wash and the reason for that return is because a dog would not eat the supplement. A client does not buy just one bottle they buy many bottles over the lifetime of their dog.

We as pet professionals have a duty to recommend to our clients products to maintain or increase the health of the dogs we care for. In addition, increasing the dog's health with Vibrant Pets makes our job easier. You can expect that dogs on Vibrant Pets will have better coats and will be more pleasant to groom.

While you are improving the dogs' health and making you're grooming more enjoyable, you can also make money. In addition to making a profit our clients are thankful and that is the bottom line.

Call me if you have any questions. You can reach me at 540-338-9554.

Re: Vibrant Pets Canine Athlete Formula

Wow! What a difference in our 16 year old Labrador Retriever and 15 year old Weimaraner!

Since we began supplementing our dogs' food with Vibrant Pets Canine Athlete we have seen a remarkable improvement in their overall functioning. Specifically, we have noticed that they are more mobile and more alert (sometimes to the point where we "threaten" to stop giving them Vibrant Pets because they're too rambunctious). We know that Vibrant Pets will help to extend their lives, and we will keep them on it indefinitely.

Thanks, Doggie Wash, for introducing us to this wonderful product!

Joints/Coat/General Health

Lee suggested we use the Vibrant Pet Canine Athlete formula for our Wheaten Terrier.

We have used it for both our 14 year old Wheaten and our 11 year old beagle-mix for about a year. Before using this formula our wheaten was not very active and you could tell her joints were sore. She is now very active, loves to go for walks, jumps up on everything and you can tell she feels good. Our beagle acts like a puppy - and her coat is gorgeous - soft, shiny. Both are very healthy dogs and we plan on

continuing to use the Vibrant Pet Canine Athlete formula. Thanks Doggie Wash!

Sharon Wilson

Taste
Vibrant Pets,

I just received my first order of the Canine Athlete. Excited to see the new product I opened the bottle right away.

Wondering if my dogs would like the new power, I let them smell the security seal cap. They started licking it quickly and when I went to take it away they followed me as if to say they wanted more.

How could I tell them no ?

I then placed a little bit of the power on the cap and they Loved it !

I must of spilt some on the tile floor because Moose laid down and started licking the tile.

He has never done that before. Several minutes later he was back licking the tile floor again in the same spot.

I just want people to know if they are concerned about the taste, I don't think they should worry.

Do the taste test with the security seal cap, I bet your dog will want more.

Kind Regards,

Rene Luther ~ Spunkmeir Australian Shepherds

Puppies
Dear Vibrant Pets...

I am so excited to be able to offer these products to my clients and their wonderful canine family members!

It is so true, our pets often get treated much better than we treat ourselves (and deservedly so!). This new product offers the best of everything I want to give my dogs, and they love the taste!

My puppies will be started on this supplement and their new families will be given the supplement to take home. I'm sure they will see why this is so important to their new family member.

Thanks so much for caring so much!

Sincerely,
Connie

Skin/Coat/Performance

All my dogs use Vibrant Pets and have since the product first came out. My dogs are given Canine Athlete. As a show exhibitor, my dogs have wonder coats and skin that really give them an edge in the ring. My male also does agility and at the age of almost nine years, he still runs a course like a young dog. As a breeder, I give all my puppies Vibrant Pets and all my puppy owners are strongly encouraged to use it, as well. I now have three generations of dogs on Vibrant Pets and all are extremely healthy. This product does everything it says it will, and more!

World Famous German Shepard Handler

My dog, Fred, has been taking the Vibrant Pets - Canine Athlete formula for the last several weeks. I noticed a difference after the first few days that I started mixing it in with her food. Being 12 years old, Fred had the typical joint issues that come with a dog of that age (limping, easily injuring her legs, etc). After starting her on the Vibrant Pets she literally seemed to revert back to how fit she was at age 5 or 6. She no longer exhibits any signs of limping or soreness in her joints. She tears around the back yard like a dog half her age. It's wonderful to see a product that could give so many years back to her. Thank you so much for turning us on to this wonderful product. You have a new constant customer!

Thank you!
Courtney Wayland (and Fred)

Lee suggested we use the Vibrant Pet Canine Athlete formula for our Wheaten Terrier. We have used it for both our 14 year old Wheaten and our 11 year old beagle-mix for about a year. Before using this formula our wheaten was not very active and you could tell her joints were sore. She is now very active, loves to go for walks, jumps up on everything and you can tell she feels good. Our beagle acts like a puppy - and her coat is gorgeous - soft, shiny. Both are very healthy dogs and we plan on continuing to use the Vibrant Pet Canine Athlete formula. Thanks Doggie Wash!

Sharon Wilson

I am using your product 3 years now for my Jack Russel Terrier Stumpy. He is now 11 years old. 3 years ago he had severe arthritis, he barely worked. Thank you for your All in one Supplement. In a week after using this supplement my Stumpy began walking and running even jumping up to the couch and he still does it all. Two years ago he lost one front leg - he got tumor removed twice, that's why they amputated his leg. So my Stumpy on 3 legs, but still active and moves around because of your product. Please, place my message - at testimonials. I buy your product at your store not on line and that is why I wasn't able to place it on your website. Thank you very much to save my dog. Sincerely, Irina Bosworth.

Testimonials from Amazon.com

I bought this product as part of a plan to assist my aging Boston Terrier with certain health challenges: arthritis, hearing loss, cataract on one eye, skin tumors, and, of course, dental problems. My retired husband was in charge of our dog's care since I work full-time at considerable distance from home. When my husband died suddenly, this adorable dog became my sole responsibility. I set about helping my Boston recover what was salvageable of his health. This has included so far: removal of the skin tumors; extraction of five teeth; upgraded Solid Gold Senior Pet food mixed with fresh chicken, turkey, or sirloin; a pet ramp for easier access up the steps to our home; heated dog beds for the bedroom and living room (see separate reviews); SnuggleSafe heat pads for travel in the car; a warm raincoat and pet stroller (for when he's having a particularly bad day); Rescue Remedy to help him with separation anxiety when I leave for work; JointMax soft chew supplements, and Vibrant Pets supplement.

The latter is reviewed in this context. As part of the overall plan, I believe that Vibrant Pets supplement is contributing to the drastically improved health and appearance of this wonderful little dog. He has survived the loss of his primary caregiver and is on the road to recovery from less than optimum care for several years prior to that loss. I mix the supplement with his dog food, fresh protein, and warm water (to soften the dog food) twice a day. His bowel movements have improved and he even has times of initiating play with me. Caring whole-heartedly for this beautiful dog contributes tenfold to my own health and happiness.

I've been using this product since I started feeding a homemade diet to fill in the nutritional gaps. I did MUCH research on multiple supplements and this was by far the best at the most reasonable price. I have 5 Golden Retrievers ranging from 4-14 years of age and they have never looked or felt better! When I had a question about it, I called the owner of the company and he returned my call within the hour and was very helpful. I am extremely dismayed that Amazon's price has gone up in one month from \$73 to over \$100!?! It's now less expensive from the vibrant pets website, especially if you use the discount code found on their FB page. Great product but less expensive elsewhere.

We have been using Vibrant Pet Canine Athletic Formula for about 4 weeks for our both of our "older" dogs. They are both 11 years old. The larger of the two had started exhibiting joint discomfort about 9 months ago. She is like a puppy again. No limping or stiffness when she first gets up. We have found her sleeping on the couch again, which she wasn't able to do, the jump up must have been too much for her. Our slightly smaller dog has so much enthusiasm and energy, we may have to cut back on his scoops. My husband is the eternal skeptic, but he has commented on the improvement of their health as well. It is a great product.

I am a true believer in this supplement. It offers everything you need; probiotics, joint support, and immune system support. I started using this for my rescued Doberman who suffered from severe demodex mange. Adding this supplement to her treatment regimen allowed her

to make a complete recovery. When I unintentionally ran out of it, she relapsed within 10 days. Restarting her again brought a complete remission. Needless to say, I have not stopped giving it to her for the past 4 yrs and she has a beautiful full coat. Everyone that I have recommended use this product has had similar excellent results, for a variety of problems such as poor coat, digestive problems, diarrhea, and joint problems. My dogs love it sprinkled on their food. It is quite affordable compared to other supplements, as a little bit goes a long way. Give it a try!

I have heard nothing but wonderful things about Vibrant Pets (canine athlete), so after my sheltie has experienced allergies for the first time and has had issues with her coat I decided to give it a try.well that was about a year ago.

I've changed my review from 4 to 5 stars since then; as I've seen the results for myself, having a Sheltie who I groom weekly gets complements all of the time, everyone thinks she gets groomed daily. Her coat is now healthy, shines and so much easier to deal with now that she is on Vibrant Pets!

I've recommended it to all my friends with dogs.

i have been pleased with this product. it has definitely improved the quality of my dogs' coats and the joint supplement is just a bonus. i consider it preventive medicine to start protecting the dogs' joints before they are older and it helps since my dogs are so active in various dog events.

Our dogs are greatly benefiting from this product.

We started using this product in November 2013, and what a difference it has made in our 9 yr old dog! A short while before that we rescued a much younger dog (She turned 2 Feb 2014) They played and played, but our older dog was having issues keeping up and you could tell she was sore. After about 3 weeks on this product, we

noticed the older dog was playing more and more and no longer appeared sore!! As well our rescued pups hair was a bit flakey, but just after a short while on this formula, the flakes disappeared. Very happy with this product, and will be a lifetime customer

My dogs love it and we have excellent results for our confirmation and performance dogs. A little goes a long way with our Schipperkes. We always keep this on hand for both our aging foundation dogs and the younger generation out performing today.

Hey everyone got my first 48 ounce bag and think i will be using it for quite a while..

the portions i give are once every 2 meals and after 4 months i still have more then 3/4 left..

So if you got no space for storage i really rather you buy a smaller bag.. however, in terms of value for money this one really takes the cake!

We have been using this Vibrant Formula for our our dog ever since we got him, on the advice of the breeder. He likes it and it seems to do a great job for him.

I've used Vibrant Pets in the past with my previous dog, so when I adopted my new pup, I knew it would be on my list of "to buy" items. When I adopted my dog, his coat was pretty patchy -- lots of bare spots -- also, he was scratching quite a bit. He also had very soft stools. I put him on Vibrant Pets Canine Athlete and the turnaround was amazing. In less than a month, his coat is plush, soft, shiny, and full. I get complements every day. He's not scratching nearly as much and his stools are much easier to pick up. I recommend this product highly.

I bought this for the probiotic and digestive nature of the ingredients. However, we have a 4 year old Rhodesian Ridgeback mix who is very

very active. Around age 1, she was limping and having difficulty in the evenings getting up the stairs. We discovered she had hip dysplasia, and living in the California desert at the time, running in the sand and soft earth was bothering her hips. We immediately decided to take the natural route in preventing further deterioration. We put her on a high quality fish oil, K9 Liquid Health with MSM, Glucosamine and Chondroitin, and Dismutase to help the break down of proteins to help with possible arthritis in the future. She did great on these and within 6 months, she was back to normal. She has been on these products ever since, but she does get some minor skin rashes, ear problems and urinary issues (from an inverted vulva), so I wanted to add some probiotics to her regimen. After some research I found this product and decided to try it, in combination with her other supplements. So far, her skin has cleared up a little and her ears need cleaning much less frequently and she really is not bothered by the powder on her food. Also, there is less urinary tract infections. I am not comfortable speaking on the effectiveness of the Glucosamine and other joint health ingredients as she has been on other products for a while. After about a month, I stopped using the Liquid Health (we were out and I wanted to see how this would do) and I have not noticed any change so I assume it works just as well. She is still on her fish oil and dismutase though,

I found Vibrant Pets about four years ago when I adopted a six-year-old Sheltie with a dull, dry coat. I bought "Show Dog" formula (now Skin and Coat) and also used daily supplements of fish oil and Vitamin E. His coat was gorgeous, soft and flowing! I was hooked and now use Canine Athlete formula for my two new Sheltie girls (my older dogs have passed on). Will keep ordering - also appreciate the attentive service of the Vibrant Pets founder who lives in Virginia.

We own a fawn Dobie. His coat is gorgeous! When we went on vacation he was in a kennel. We didn't send him with his Vibrant Pet. His coat when he returned was dull and dry. It has since returned to a great coat post restarting him on Vibrant Pet.

I have been using this product for quite some time. I show my dogs (Havanese) and there are days that are very long. I feel that this supplement helps them get thru these tough days and as a bonus my dogs have healthy beautiful shiny coats I recommend this highly.

My dogs really love this & are very healthy & energetic. Will continue to use this great product as long as I can afford it. The price has gone up a lot in the last 6 months.
